

MyRode SERIES

Vital Electrode for Wearable Sensors

BACKGROUND NOISE ELIMINATION

Our products significantly eliminate background noise with proprietary noise elimination capability. Our full-scale shield structure elimination technology is very beneficial in a range of applications.

ECG WITH MyRode NOISE ELIMINATION:

NO NOISE ELIMINATION:

OVER 25 YEARS OF SAFETY & RELIABILITY

For over 25 years Safety and Reliability have been core technology requirements for all I-Medex products. Our team has excellent know-how and experience in materials development and is design focused. We use an integrated manufacturing system approach – using standardized product manufacturing practices.

All our products are manufactured to the highest quality standards.
